Coursera Financial Markets Quiz Answer

The most popular quiz type for checking knowledge is a multiple-choice quiz where the learners are given answer options to choose from. However, it has a "weak spot" - there's always a chance of guessing the right answer. If you need a 100% guarantee that your test takers have the necessary knowledge, create a fill-in-the-blank quiz.

How to Create a Fill-in-the-Blank Quiz in a Snap

AFP established and administers the Certified Treasury Professional and Certified Corporate FP&A Professional credentials, which set standards of excellence in treasury and finance. Each year, AFP hosts the largest networking conference worldwide for more than 7,000 corporate financial professionals.

AFP | The Association for Financial Professionals

For example, you should use a pool of 75-120 questions in a quiz where employees randomly receive only 25-30 of them. As a result, each user has different quiz content. This is an easy way to limit learners' ability to share answers with each other. To learn how to randomize questions in an iSpring Suite quiz, see this short video tutorial:
