The LEICA X1 is a German-made digital point-and-shoot with a half-frame sensor and a fixed 24mm f/2.8 lens. It was announced along with the far superior LEICA M9 on 9/9/2009, and started shipping in in December 2009.. The LEICA X1 uses a 15.7 x 23.6 mm sensor, with which the 24mm lens gives an angle of view similar to what a 36mm lens would see on a 35mm or full-frame camera.

Leica X1 - Ken Rockwell

Im used to always living on manual focus on DSLRs, I shoot video alot so I never have my lenses on AUTO, The Leica X1 is the first camera I trust to do that on. FIXED LENS: yes a fixed lens, yes a bit of a head scratch, brow raise... but think of the Leica X1 camera as a 7d or 5d with a canon fixed prime 35mm lens that takes awesome dark photos with natural looking highlights that fits in the palm of your hand.

Although it is proved that the AF of X2 is improved in respect to Leica X1, the experience with the camera suggest to use the manual focus. With the depth of field indicator, X2 users can see the in-focus area of a picture they would take based on the current aperture set on the top dial.

Leica X2: my way to work with this camera and some ...

The 'focus' element comes into play once the user has switched from default auto focus to manual focus via a press of the AF/MF button placed at six o'clock on the cross key arrangement; whereby a central portion of the image is enlarged - as when using live view on a DSLR for manual focus - and a sliding scale of between 0.3 metres and infinity (and the same distance given in feet) provided to adjust the focus range accordingly.

Leica X2 Review | Photography Blog

In this way, the X1 offers photographers complete manual control of the creative process while simultaneously guaranteeing rapid reaction ability with its automatic functions when required. The large size of its image sensor, a maximum sensitivity of ISO 3200 and its large aperture make the Leica X1 an ideal choice for 'available light' photography when only the last rays of natural light are exist.

Sony T900 vs Leica X1 Comparison Overview. Here we are comparing two Compact cameras from Sony and Leica. Sony T900 was introduced to market in February 2009 and Leica X1 was launched in December 2009. There is only 10 months difference between T900 and X1 so we are expecting this to be a fair comparison regarding age and technology level.
