traditional problems in machine learning. This book discusses the key role of learning in cognition. Organized into 39 chapters, this book begins with an overview of pattern recognition systems of necessity that incorporate an approximate-matching process to determine the degree of similarity between an unknown input and all stored references.

These manuscripts were presented at the Fourth International Workshop on the Management of Asymptomatic Primary Hyperparathyroidism on September 19-21, 2013, in Florence, Italy. After the presentations and discussions, a consensus panel convened, and each question was discussed in detail. Through discussion and dialogue, consensus was achieved.
